

## Commercial offer from Biocom Ltd.

Biocom company is a leading agricultural company on the Belarusian market over 25 years. Currently Biocom Ltd. offers domestic and foreign agricultural producers a wide range of products: whole milk replacers for farm animals, skimmed milk powder replacers for farm animals and poultry, concentrates for milk replacer and skimmed milk powder production, feed additives for farm animals and poultry, silage inoculants.

More detailed information you can find in the Application 1 (price-list and brief description of products) and also on our web-site [www.biocom.by](http://www.biocom.by).

Biocom's product quality meets the high international requirements. Quality control of raw material and finished products on all chemical technological parameters is carried out by the certified production laboratory with the usage of modern high-precision equipment. We are certified in accordance with STB ISO 9001-2015, HACCP, GMP+ B1, STB 18001-2009, STB ISO 14001-2017.

Our consultants help a client to settle the production problems in the nutrition, animal and poultry management, to make best decisions and achieve the highest productivity.

We offer flexible conditions of cooperation. Depending on the purchased product volume discount system is applied. Shipment can be carried out on the following conditions according to the Incoterms 2010: FCA, CIF, FOB. Terms for fulfilment of the orders are from 20 till 30 days. Also Biocom Ltd. has possibility to manufacture a product concerning customer individual formula.

We focused on a long-standing relationship and many of our clients buy Biocom's products during decades.

**We will be glad to see you among our customers.**

For any enquires about the cooperation, please, contact us:

**Price list of Biocom Ltd.**

Product, target animals	Trade name	Product properties	Package, shelf life	Minimal Batch, in MT	USD per 1 t (EXW price)	HS codes
Whole milk replacer for piglets from 5th day of life	Biomilk-P	Multi-protect formula: decreases the diarrhea risk, stimulates secretion of digestive enzymes, maintains favourable conditions for the beneficial microflora growth, increases weight gain	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	3000 - 3200	230990
Whole milk replacer for piglets from 5th day of life	Phytomilk-P	Phyto-protect formula: reduces feed conversion, decreases the mortality percentage, increases weight gain, strengthens the immunity	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	2900-3100	230990
Whole milk replacer for calves from 7th day of life	Biomilk-16 Premium	Feed digestibility increase, improvement of immune statuses, reducing diarrhea incidence, Crude protein- 21%, crude fat-16%, crude fiber-0,1%, Lactose - 35%	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	3700-3900	230990
Whole milk replacer for calves from 10th day of life	Biomilk-16 Standard	Feed digestibility increase, improvement of immune statuses, reducing diarrhea incidence, Crude protein- 21%, crude fat-16%, crude fiber-0,8%, Lactose 32%	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	2300-2467	230990
Whole milk replacer for calves from 4th week of life	Biomilk-11 Standard	Feed digestibility increase, improvement of immune statuses, reducing diarrhea incidence, Crude protein- 23%, crude fat-11%, crude fiber-1,5%, Lactose 35%	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	1550-1750	230990
Whole milk replacer for lambs and kids from 4th day of life	Biomilk-22 M	Feed digestibility increase, improvement of immune statuses, reducing diarrhea incidence, Crude protein- 20,8%, crude fat-22%, crude fiber-0,1%, Lactose 30%	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	4000-4200	230990
Whole milk replacer for calves from 10th day of life	Phytomilk-16 Standard (with phyto-protect formula)	Improving productivity by metabolism stimulation, prophylaxis of digestive and respiratory diseases, decreasing antibiotic usage Crude protein-21%, crude fat-16%, crude fiber-0,8%, Lactose 32%	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	2300-2500	230990
Whole milk replacer for calves from 4th week of life	Phytomilk-11 Standard (with phyto-protect formula)	Improving productivity by metabolism stimulation, prophylaxis of digestive and respiratory diseases, decreasing antibiotic usage Crude protein-23%, crude fat-11%, crude fiber-1,5%, Lactose 35%	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	1600-1723	230990

Concentrate for production of whole milk replacer for calves	Biomix 60% (for mixing with skimmed milk powder)	Has excellent mixing properties, homogeneity, contains dairy components, probiotic, acidifying agent, vitamin-mineral premix, flavoring agent, vegetable fat in microencapsulated form, gives extra profit on each calf, Crude protein-14%, Crude fat-19%, Crude fiber - 1,2%, Lactose - 30%	25 kg multiwall paper bag, 1000 kg big bags, <b>12 months</b>	20	1380-1480	230990
Concentrate for production of whole milk replacer for calves	Biomix 60% (for mixing with dry milk whey)	Has excellent mixing properties, homogeneity, contains dairy components, probiotic, acidifying agent, vitamin-mineral premix, flavoring agent, vegetable fat in microencapsulated form, gives extra profit on each calf, Crude protein-28%, Crude fat-19%, Crude fiber - 1,89%, Lactose -10%	25 kg multiwall paper bag, 1000 kg big bags, <b>12 months</b>	20	1350-1430	230990
Skimmed milk powder replacer for farm animals and poultry (as a supplement)	Biolak	For balancing of compound feeds in the relations of protein and lactose. Improvement of growth performance, high digestibility, stress prevention	multiwall paper bags with PE liner, net weight from 10 kg to 40 kg, flexible intermediate bulk container, net weight from 400 kg to 1250 kg, <b>12 months</b>	20	1300-1400	230990
Prophylactic anionic feed additive for close up dry cows	VitaAnion	Prepare cow to the calving, increases cow productivity, reduces ketosis, reduces cases of retained placenta and paresis	15, 25 kg multiwall paper bag, <b>12 months</b>	20	1500-1647	230990
Prophylactic protein cationic feed additive for fresh cows	TurboStart	Reduces formation of ammonia in the rumen, overcomes negative protein balance, prevents rumen acidosis, enhances uptake of feed dry matter		20	1680-1810	230990
Prophylactic cationic feed additive for cows and young cattle	MegaVit	Provides high immunity, hoof health, mastitis prophylaxis, antioxidant protection, hepato protective effect, high cation-anion balance		20	1500-1615	230990
Healing remedy for cows in the first ours after calving	ReeStabil	It is not needed without forced drenching, increases milk production and quality milk, eliminate negative energy balance, good start of lactation, reduces risk of post-partum paresis	500 g polypropylene metalized film bag, <b>12 months</b>	2	2850-2980	230990
Anti-diarrhea remedy for calves	AquaTonic SD	Inhibits growth of pathogenic flora, reduces irritation and inflammation of intestinal mucosa, maintains acid-base, hydro-electrolyte energy balance	500 g polypropylene metalized film bag, <b>12 months</b>	2	5300-5500	230990

Rehydration-remedy for calves	AquaTonic	Reduces the risk of digestive disturbances, prevents paresis and paralysis, accelerates the regeneration of the intestinal villi, has sedative effect	Base complex 230 g	2	3800-3978	230990
			Energy complex 770 g			
			polypropylene metallized film bag, <b>12 months</b>			
Pig-booster additive for sows, boars, piglets	UltraLin	Prevents anemia development, provides good lactation, optimal work of the endocrine system, improves the reproductive indicators of boars, improves spermatogenesis	500 g metallized polypropylene film bag, 1kg, 5 kg, 10 kg, 15 kg, 30 kg plastic containers, <b>12 months</b>	2	9000-9300	230990
Mycotoxin neutralizer	CleanFeed	Increases the safety of young animals, stops the mold development in feed, does not react with feed components, has high sorption and retention capacity, safe for people, animals and environment	25 kg multiwall paper bag, <b>18 months</b>	10	3200-3400	230990
Silage inoculant for making of silage, haylage (maize, sunflower, grasses, grain haylage, alfaalfa, legume-grass mixture, crucials) rolled grain	Lactogras NG	Provides controlled fermentation of harvested forages, keeps nutritive properties of raw material, produces best quantity of lactic, acetic and propionic acids, inhibits the growth of different bacteria, yeasts, fungi leading to the fodder spoiling	500 g polypropylene metallized film bag, <b>24 months</b>	0,5	380-430	300290
Water-soluble feed additive for farm poultry	FeedPower	Prevents avitaminosis, hypovitaminosis, promotes development of bone and connective tissue, improve reproduction function	500 g polypropylene metallized film bag, <b>12 months</b>	2	7700-7810	230990
Biological microclimate regulator for livestock building (as bedding dryer for cattle, poultry)	Adamant	Fights with pathogenic microorganisms, destroys spores of fungi, kills bacteria which produce urea, decrease somatic cells number, treats hoof diseases, reduces egg contamination, protects from insect bites and skin infections	25 kg multiwall paper bag, <b>24 months</b>	20	735-835	382499
Emulsifying feed additive	Diafat	Feed additive is intended for the agricultural enterprises and enterprises of mixed feed industry, manufacturers of premixes, milk replacers, feed additives to input into the manufactured products for improving emulsifying, enzymatic splitting and lipid digestion in the gastrointestinal tract in animals.	5, 15, 25 kg multiwall paper bag, <b>12 months</b>	3	3860-3980	230990

Anticaking feed additive	Silamid	Feed additive is intended for the agricultural enterprises and enterprises of mixed feed industry, manufacturers of pre-mixes, milk replacers, feed additives to input into the manufactured products for preventing lump formation, gluing and caking, slowing the fat oxidation process, breakdown of vitamins and other nutrients.	5, 15, 25 kg multiwall paper bag, <b>36 months</b>	3	2500-2630	230990
Soy flour	Soy flour (300 micron - particle size)	Produced only from soybean meal, finely dispersed, free-flowing powder, crude protein-41%, crude fat 4,0%	1000 kg big bags, <b>12 months</b>	20	1400-1500	230400
Soy flour	Soy flour (75 micron - particle size)	Produced only from soybean meal, finely dispersed, free-flowing powder, crude protein-47%, crude fat 4,0%		20	1550-1650	230400
